

YOUR 510 PENSION BENEFITS

You receive yearly notices in the mail from Allied Administrators, describing the status of your pension.

You are eligible for full benefits at age 62. Age 65 is full retirement age and certain regulations apply.

When you prepare to apply for benefits, do so two months in advance. Call Allied at 415-986-6276. Ask for the Pension Department, or get their extension number, write it down, and then you can dial directly.

The pension representatives are obliging and helpful. They might just answer your question right there on the phone, send you information, or set up further consultations.

You will be providing them with paperwork, filling out and signing an application form, and standing by for different processing and waiting periods.
